

Name of Organization	Japan Water Works Association
----------------------	--------------------------------------

Name of Activity	JICA Group Training Course "Comprehensive Engineering on Water Supply Systems (A)"
Implementation Period	3.June.2016 -12.August.2016
Main Organizer	JICA Tokyo
Outline and Objectives	<p>This training is aiming to foster development of engineers who will take on leading roles in managing waterworks facilities and target of the training is mid-level waterworks engineers from developing countries.</p> <p>The program features a number of lectures, observation tours and exercises regarding comprehensive water supply technologies for about 2 months. The training has a long history and so far a total of 588 trainees from about 90 countries and regions have participated.</p> <p>Main programs of the training course are as follows.</p> <ul style="list-style-type: none"> • Water intake, reservoir, distribution facilities • Jar test (Optimization of coaguration) • Leak prevention • Exercise on basic planning of water supply systems • Observation of water pipe/valve factories • Anti-seismic construction and measures for disaster • Groundwater technology • Water treatment process • Water demand forecasting and hydraulics in water distribution networks etc.
Target (Cooperator) Countries	CAMBODIA,INDONESIA,MYANMAR,IRAQ(2),ETHIOPIA(2),GUINEA(2),MALAWI(2),RWANDA,SUDAN,ZAMBIA(2) (TOTAL 15 participants)
